Inspection

Lifting & Handling Equipment

An Ultimate Expertise for Your Factory

-
- Nearly 40 technicians ready to serve you from the Quebec, Montreal, Saguenay, and Toronto regions.
 - Maintenance and repair of any models of hoisting equipment
 - Over 25 years of experience

The best solution to prevent mechanical or operational failure

WHY CONDUCT AN INSPECTION?

Regularly inspecting your equipment helps you:

- Prevent mechanical and operational failures
- Identify potential risks to ensure the safety of all workers
- Maintain compliance with current standards and regulations

During inspections, safety is our top priority. Continuously trained on products and the latest standards, our experts will provide you with an accurate assessment of your equipment through detailed electronic reports with photos.

24/7

Emergency Service

A DEDICATED TEAM
