

High performance technologies and process equipment for cement and mineral industries

Within Fives, the Cement & Minerals business line specializes in the design, supply and installation of **core process equipment** and **complete plants**.

The Group's expertise includes proprietary technologies in crushing, grinding, pyroprocess, combustion and gas treatment, as well as complete project management and customer services.

From the initial project definition to the plant commissioning, Fives provides tailor-made solutions, on-time delivery, within-budget execution.

As a state-of-the-art supplier, Fives strives to provide customers with solutions combining the utmost performance with sustainable development.

Fives also offers plant site services to support customers. Our worldwide team of experts provides responsive and relevant support for operation and maintenance of burning lines and grinding workshops, whatever the original manufacturer.

Fives creates innovative solutions to ensure the reliability of clients' equipment, increase their performance and reduce their maintenance costs.

FIVES, YOUR PARTNER FOR A MORE EFFICIENT AND SUSTAINABLE INDUSTRY

INDUSTRY CAN DO IT

From the first railway lines to the Eiffel Tower elevators and factory 4.0, for over 200 years, Fives has been designing the disruptive solutions and technologies that make up industry.

As a pioneer of decarbonization and digitalization, Fives is always one innovation ahead thanks to its ability to anticipate customer needs. By responding to the specificities of each market locally, Fives combines economic and environmental performance in 24 countries thanks to nearly 9,000 employees. Fives designs and manufactures machines, process equipment and production lines for the world's largest industrial groups in various sectors such as aluminium, steel, glass, automotive, logistics, aerospace, cement and energy.
