

Adaptors refurbishment

fives

Adaptors are high-precision parts designed to optimize filling despite environmental and handling constraints. The integrity of these strategic tools depends on the validity of the measurements and controls carried out, as well as on the smooth running of the process.

The benefits of refurbishment at Fives :

Genuine OEM parts are a guarantee of **quality** and **reliability** !

Refurbishment is carried out by **our experts** following **Fives' standards!**

Keep **control on your budget** and planning with our **Refurbishment Contract!**

The performance of each adaptor is **certified** by the test on our bench!

This service is covered by our 1-year parts and labour warranty.

Expertise of your adaptor from 925€*

**refurbishment from 2 200€ (average price for a brake adaptor). Expertise does not engage to refurbishment.*

The **Refurbishment Contract** allows you to plan and stagger your maintenance, while reducing the downtime of your tools (2 weeks) and benefiting from preferential rates!
