

Press release – Saltillo, May 27<sup>th</sup>, 2026

## **Fives strengthens its automation capabilities in North America with Fives Automatización México**

Fives, worldwide leader in industrial engineering, is strengthening its automation presence in Mexico through Fives Automatización México, an organization that relies on the long-standing expertise of Fives DyAG Corp., supported by the complementary solutions of Fives Cinetic Corp.

**The entity brings together decades of combined experience** in:

- Controls engineering, robotics solutions, equipment modernization and retrofit, machine vision, and custom software (Fives DyAG Corp.)
- Industrial washers, fluid filling and sealing solutions, material handling, flow optimization, conveyors and system integration (Fives Cinetic Corp.)

With two locations in Saltillo (Coahuila) and Silao (Guanajuato), 100 employees and more than 6,500 sqm of workshop space, **Fives Automatización México delivers integrated solutions for the automotive and manufacturing industries, helping customers improve production performance, optimize operations, and modernize their equipment.**

*“Fives Automatización México leverages the recognized expertise and cutting-edge technologies of Fives DyAG Corp. and Fives Cinetic Corp. to meet the growing automation needs in Mexico and North America. With a strong local presence, we operate under a ‘local-to-local’ approach, delivering end-to-end solutions tailored to our customers’ requirements and building lasting relationships with them.”*

**Mauricio Monteagudo, General Manager of Fives Automatización México.**

The organization will also invest in local talent development through training programs and partnerships with regional institutions. A third facility is scheduled to open by the end of 2026 to support increasing demand and proximity with local customers.

**Fives has been present in Mexico for more than 20 years.** With five sites and 130 employees, the Group supports industrial companies in enhancing performance, reducing emissions, and accelerating automation and digitalization.
